Notes	

## Effectiveness

We inject 10 bugs in our system and the other group has reported 7 bugs so the effectiveness of our testers is 70%. On the other hand, they have found real bugs that helped us to improve our project.

## Table of contents

<b>Bug in use case UC10 Company edits and deletes problem</b>	<b>3</b>

THE TESTER REPORTED THIS ERROR

# Bug in use case UC28 Auditor edits and deletes audits

## Description

When you click on “My audits” button, before to create a edit or delete an audit, you should see all of your audits, without a bug.

### List audit

3 items found, displaying all items.					
1					
Moment	Text	Score	Final mode	Position	
2019/01/01	Yo seré el auditor de esta position	8.0	Yes	position1	<a href="#">Display</a>
2019/02/01	nada que decir de momento	0.0	No	position1	<a href="#">Display</a>
2019/01/01	Yo puede que sea el auditor de esta position	0.0	No	position1	<a href="#">Display</a>

Back

We have injected a bug that you will see the list of all audits instead of the list of your audits when you click on My Audits.

<a href="#">en</a>   <a href="#">es</a>					
List audit					
7 items found, displaying 1 to 5.					
[First/Prev] 1, <a href="#">2</a> [Next/Last]					
Moment	Text	Score	Final mode	Position	
2019/01/01	Yo seré el auditor de esta position	8.0	Yes	position1	<a href="#">Display</a>
2019/02/01	nada que decir de momento	0.0	No	position1	<a href="#">Display</a>
2019/01/01	Yo puede que sea el auditor de esta position	0.0	No	position1	<a href="#">Display</a>
2019/01/01	Bien, vamos a auditar	5.0	Yes	position3	<a href="#">Display</a>
2019/01/01	This is a new audit	0.0	No	position3	<a href="#">Display</a>

Back

We have changed, the query on the controller, for find all query.

## Results

THE TESTER DIDN'T REPORT THIS ERROR

# Bug in use case UC28 Auditor edits and deletes audits

## Description

Without a bug when you are going to edit an edit, if you fill the form with wrong data you should get back to the same view with the errors. Finally if you click on cancel button you should be redirected to the previous list.

### List audit

3 items found, displaying all items.

1

Moment	Text	Score	Final mode	Position	
2019/01/01	Yo seré el auditor de esta position	8.0	Yes	position1	<a href="#">Display</a>
2019/02/01	nada que decir de momento	0.0	No	position1	<a href="#">Display</a>
2019/01/01	Yo puede que sea el auditor de esta position	0.0	No	position1	<a href="#">Display</a>

[Back](#)

We have injected a bug that if you click on cancel button you will be redirected to welcome page. We have changed the URL of the button.

## Results

THE TESTER REPORTED THIS ERROR

# Bug in use case UC36 Provider edits and deletes sponsorships

## Description

Normally you as a provider simply just after enter in the edit view of a sponsorship, you can delete it by clicking the button “delete”.

The bug injected consist on an error on the attribute “name” of the button in which instead of delete the sponsorship, the system save it just like you do with the button “save”.

```
15 <form:hidden path="version" />
16 <form:hidden path="positionId" />
17
18 <acme:textbox code="sponsorship.banner" size="100" path="banner" obligatory="true"/>
19
20 <acme:textbox code="sponsorship.target" size="100" path="target" obligatory="true"/>
21
22 <acme:textbox code="sponsorship.creditCard.holderName" path="creditCard.holderName" obligatory="true"/>
23
24 <acme:textbox code="sponsorship.creditCard.make" path="creditCard.make" obligatory="true"/>
25
26 <acme:textbox code="sponsorship.creditCard.number" path="creditCard.number" obligatory="true"/>
27
28 <acme:textbox code="sponsorship.creditCard.expMonth" path="creditCard.expMonth" obligatory="true"/>
29
30 <acme:textbox code="sponsorship.creditCard.expYear" path="creditCard.expYear" obligatory="true"/>
31
32 <acme:textbox code="sponsorship.creditCard.cvv" path="creditCard.cvv" obligatory="true"/>
33
34 <acme:submit name="save" code="sponsorship.save" />
35
36
37 <jstl:if test="${sponsorship.id!=0}">
38 <acme:submit name="save" code="sponsorship.delete" />
39 </jstl:if>
40
41 <acme:cancel code="sponsorship.cancel" url="sponsorship/provider/list.do" />
```

So the result with the bug might be that theres is no way to delete a sponsorship and always will be at least 2 sponsorships associated with the provider 1 for example

PROVIDER COMPANIES LIST POSITIONS LIST PROVIDERS LIST ITEMS LIST PROFILE (PROVIDER)

en es

## List of sponsorships

2 items found, displaying all items.  
1

Banner	Target	Cost	Position	Number		
<a href="https://imgur.com/gallery/CJ5yubF">https://imgur.com/gallery/CJ5yubF</a>	<a href="http://www.target.com">http://www.target.com</a>		position1	1111222233334444	<a href="#">Edit</a>	<a href="#">Display</a>
<a href="https://imgur.com/gallery/RB1kQq3">https://imgur.com/gallery/RB1kQq3</a>	<a href="http://www.target.com">http://www.target.com</a>		position3	1111222233334444	<a href="#">Edit</a>	<a href="#">Display</a>
